AN INVENTORY OF ACADEMIC DEGREE PROGRAMS IN SOUTH CAROLINA

Introduction

This inventory of academic degree programs has been compiled by the South Carolina Commission on Higher Education primarily as an aid to institutional and to statewide planning for postsecondary education. The information presented will also be of value to those who wish to know at which institutions a given program is offered within the State. The inventory is based on information furnished to the Commission by each institution and is current as of the fall academic term, 1991.

The inventory is divided into four parts. In Part I are programs listed by category. In Part II are listed public and private non-profit institutions and the degree programs offered by each. In Part III are listed centers, bureaus, and institutes in the public senior colleges and universities. In Part IV are listed initial teacher certification programs approved by the State Department of Education as of September, 1991 in the public senior colleges and universities.

Within the inventory, abbreviations used to categorize the level or levels of each program are defined as follows:

Abbreviation

- C . Diplomas or Certificates (at least one year)
- A . Associate degrees (such as Associate in Arts, Associate in Science, Associate in Business)
- B . Baccalaureate degrees (such as Bachelor of Arts or Bachelor of Education)
- M . Masters degrees (such as Master of Science or Master of Education)
- S . Education Specialist Degrees
- D . Doctoral degrees (such as Doctor of Philosophy or Doctor of Education)

For convenience, programs are arranged according to a standard classification (A Classification of Instructional Programs, National Center for Education Statistics, February, 1981). All institutions offering one or more programs identified with a given subfield are listed immediately following the entry for that subfield in Part I. State-supported institutions are included in the first group under each subfield followed by private or independent colleges in the second group under each subfield.

In most cases, the title of the program in the Inventory is that preferred by the institution. In a few cases, where programs similar in nature and objectives are offered with different preferred titles, these have been grouped for ease of identification.
